

# CLINICAL SOCIAL WORKERS AND CLINICAL PSYCHOLOGISTS: PRACTICING WITH PERSONS LIVING WITH DEMENTIA AND THEIR CARE PARTNERS

## WB4126

**PROGRAM DESCRIPTION:** PowerPoint module, faculty guide and reference file that are designed to increase knowledge and change competency of Alzheimer's Disease and Related Dementias practices and strategies. Content is derived from actual literature, expert opinion, and clinical practice.

### OBJECTIVES:

After reviewing this module, the learner will be able to:

1. List two best practices in dementia assessment performed by clinical psychologists
2. List two best practices in cognitive testing performed by both clinical social workers and clinical psychologists
3. Recognize the fundamentals of coaching persons affected by dementia to manage the cognitive, psychosocial, and behavioral changes in persons living with dementia
4. Identify strategies utilized by clinical social workers and clinical psychologists who practice with persons affected by dementia
5. Identify resources available to support persons affected by dementia to best meet their care needs during the dementia continuum
