

RECOGNIZING THE ROLE OF DIVERSITY IN DEMENTIA CARE

WB4112

PROGRAM DESCRIPTION: PowerPoint module, faculty guide and reference file that are designed to increase knowledge and change competency of Alzheimer's Disease and Related Dementias practices and strategies. Content is derived from actual literature, expert opinion, and clinical practice.

OBJECTIVES:

At the conclusion of the session, the participant will be able to:

1. Identify ways that sex (gender) influences risk of dementia.
2. Identify ways that ethnicity influences risk of dementia.
3. Identify ways that race influences risk of dementia.
4. Discuss factors to consider when diagnosing dementia in diverse populations.
5. Discuss factors to consider when treating dementia in diverse populations
6. Identify barriers to optimal care among various different groups.
7. Discuss techniques for effective communications with diverse populations.
