

**U.S. Department of Health and Human Services
Health Resources and Services Administration**

REPORT TO CONGRESS

**NURSE CORPS LOAN REPAYMENT AND
SCHOLARSHIP PROGRAMS
FISCAL YEAR 2023**

Executive Summary

The Nurse Corps Loan Repayment and Scholarship Programs report to Congress for fiscal year (FY) 2023 responds to section 846(h) of the Public Health Service Act, which states:

Not later than 18 months after August 1, 2002, and annually thereafter, the Secretary shall prepare and submit to the Congress a report describing the programs carried out under this section, including statements regarding—

- (1) the number of enrollees, scholarships, loan repayments, and grant recipients;*
- (2) the number of graduates;*
- (3) the amount of scholarship payments and loan repayments made;*
- (4) which educational institution the recipients attended;*
- (5) the number and placement location of the scholarship and loan repayment recipients at health care facilities with a critical shortage of nurses;*
- (6) the default rate and actions required;*
- (7) the amount of outstanding default funds of both the scholarship and loan repayment programs;*
- (8) to the extent that it can be determined, the reason for the default;*
- (9) the demographics of the individuals participating in the scholarship and loan repayment programs;*
- (10) justification for the allocation of funds between the scholarship and loan repayment programs; and*
- (11) an evaluation of the overall costs and benefits of the programs.”*

The Health Resources and Services Administration (HRSA) administers the Nurse Corps Loan Repayment Program (LRP) and the Nurse Corps Scholarship Program (SP) to improve the distribution of nurses. The Nurse Corps LRP and SP support nursing education and training by providing recruitment and retention incentives to nurses committed to a career in underserved communities. These incentives include either a loan repayment or a scholarship award in exchange for service as a nurse at an eligible health care facility with a critical shortage of nurses (critical shortage facility (CSF) that is in a Health Professional Shortage Area (HPSA),¹ or a loan repayment award for service as nurse faculty at an eligible accredited school of nursing.

In FY 2023, the Nurse Corps programs received \$92.6 million in annual appropriations and used the remaining \$17.4 million from the American Rescue Plan Act of 2021 (ARP Act; Public Law 117-2) to further bolster the nursing workforce.² HRSA made a total of 1,323 new and continuation Nurse Corps awards to nurses and nursing students across 47 states and the District of Columbia. Specifically:

- The Nurse Corps LRP received 6,212 new and continuation applications and made a total of 997 awards. Of the applications received, 5,538 new and 551 continuation applicants

¹ A HPSA is a geographic area, population group, or health care facility that has been designated by HRSA as having a shortage of health professionals. For the purpose of Nurse Corps programs, HRSA only uses geographic area and population group HPSAs. HPSA scores range from 1 to 25 for primary care and mental health. The numerical score provided for a HPSA reflects the degree of need (i.e., the higher the score, the greater the need).

² In FY 2021, the program received \$200 million in supplemental funding from the ARP Act to support the nation's COVID-19 emergency response.

were eligible for funding. The Nurse Corps LRP awarded 16 percent of eligible applicants.

- HRSA made 890 LRP awards to nursing participants serving at CSFs, which included 449 new and 441 continuation awards. Ninety-six percent of LRP awards at CSF were in high-need HPSAs (defined as an area with a HPSA score of 14 or higher) with an average HPSA score of 14 in FY 2023.
- Additionally, HRSA made 107 awards to nurse faculty participants serving at a school of nursing, which included 43 new and 64 continuation Nurse Corps LRP awards.
- The Nurse Corps SP received 2,442 new and continuation applications and made a total of 326 awards. Of the applications received, 2,409 new applicants and 33 continuation participants were eligible for funding. The Nurse Corps SP awarded 13 percent of eligible applicants.
 - HRSA made 293 new and 33 continuation Nurse Corps SP awards to nursing students – all of whom demonstrated the greatest financial need.

As of September 30, 2023, the field strength consisted of 3,628 participants, including registered nurses and nurse faculty members fulfilling multi-year service commitments. This represents an 8 percent decrease from the 3,932 participants awarded in FY 2022. The FY 2023 reduction when compared to the FY 2022 field strength reflects the completion of service commitments of clinicians who had earlier contracts funded by the ARP Act. Clinicians are awarded loan repayment contracts in a given year and then complete their services commitment over a multiyear period, depending on the program. They remain in the field strength beyond the initial year where they were funded; therefore, the impact of a reduction in funding is seen in a reduction in field strength in a later year. Based on data collected by HRSA, 88 percent of Nurse Corps alumni remained at a CSF for 2 years beyond the completion of their Nurse Corps service commitment, although these alumni are not included in the calculation of field strength.

I. Legislative Language

Section 846(h) of the Public Health Service (PHS) Act requires that the Secretary provide a report to Congress. The PHS Act states:

“Not later than 18 months after August 1, 2002, and annually thereafter, the Secretary shall prepare and submit to the Congress a report describing the programs carried out under this section, including statements regarding—

- (1) the number of enrollees, scholarships, loan repayments, and grant recipients;*
- (2) the number of graduates;*
- (3) the amount of scholarship payments and loan repayments made;*
- (4) which educational institution the recipients attended;*
- (5) the number and placement location of the scholarship and loan repayment recipients at health care facilities with a critical shortage of nurses;*
- (6) the default rate and actions required;*
- (7) the amount of outstanding default funds of both the scholarship and loan repayment programs;*
- (8) to the extent that it can be determined, the reason for the default;*
- (9) the demographics of the individuals participating in the scholarship and loan repayment programs;*
- (10) justification for the allocation of funds between the scholarship and loan repayment programs; and*
- (11) an evaluation of the overall costs and benefits of the programs.”*

II. Introduction

The Health Resources and Services Administration (HRSA) administers the Nurse Corps Loan Repayment Program (LRP) and the Nurse Corps Scholarship Program (SP) to improve the distribution and supply of nursing graduates and professionals.

The Nurse Corps LRP is a financial incentive program in which registered nurses (RN) and advanced practice registered nurses (APRN), such as nurse practitioners (NPs), with the greatest financial need, enter into contracts with the U.S. Department of Health and Human Services to work full-time in an approved critical shortage facility (CSF).³ LRP repays 60 percent of the outstanding principal and interest on the nursing education loans for participants in exchange for a 2-year service commitment. Participants may be eligible for an additional 25 percent repayment of their original total qualifying educational loan balance in exchange for an optional third year of full-time service.

The Nurse Corps LRP also makes awards to nurses to serve as faculty at accredited schools of nursing. HRSA provides the same loan repayment benefits to nurse faculty as program

³ Nurse Corps defines CSFs as approved health care facilities located in, designated as, or serving a Health Professional Shortage Area with shortages of primary care or mental health professionals. HRSA designates Health Professional Shortage Areas pursuant to section 332 of the PHS Act and implementing regulations as geographic areas, population groups, or medical facilities having shortages of primary care, dental, or mental health providers.

participants serving at a CSF. The awards aid in the recruitment and retention of nurse faculty by decreasing economic barriers associated with pursuing a career in academia. Higher compensation in clinical and private sector settings can draw current and potential nurse educators away from teaching.⁴ Furthermore, the American Association of Colleges of Nursing expects the shortage of nurse faculty to increase as current nurse faculty retire.⁵ The average ages of doctoral and master's degree-prepared nurse faculty holding the rank of professor are 61 and 56 years, respectively.⁶

The Nurse Corps SP reduces financial barriers to nursing education for all levels of professional nursing students. Qualified applicants with the greatest financial need receive a funding preference.⁷ HRSA pays tuition and eligible fees directly to the schools; other reasonable costs and a monthly stipend is issued directly to individuals enrolled in an accredited school of nursing, in exchange for a 2-year minimum service commitment in a CSF post-graduation. The “other reasonable costs” is a single annual payment provided to the students to assist with the cost of books, clinical supplies/instruments, and uniforms, while the monthly stipend is to cover living expenses. In fiscal year (FY) 2023, stipends were \$1,527 per month.

The Nurse Corps LRP and Nurse Corps SP work to address the maldistribution of nurses across the United States. Many factors affect the demand of nurses, including population growth, the aging population and that of the nursing workforce, economic conditions, demand for health services broadly and within specific health care settings, and health care reimbursement.⁸ In November 2023, HRSA's National Center for Health Workforce Analysis updated its nursing workforce data, projecting a national shortage of approximately 337,970 full time equivalent RNs in 2036.⁹ This projection assumes that historical patterns of attrition, graduation, and labor force participation remain the same over the forecasted period. With data evolving, it is important to note the projections were generated using historical data through 2022 which may only partially reflect the impact of the COVID-19 pandemic on the nursing workforce, as the full extent of these effects is not yet captured in the available data.

III. Overview

HRSA establishes and publishes Nurse Corps program priorities annually in the Application and Program Guidance for each program. In FY 2023, HRSA set aside up to 50 percent of the Nurse

⁴ The American Association of Colleges of Nursing homepage — Nursing faculty shortage fact sheet. (Updated May 2024). Retrieved from <https://www.aacnnursing.org/Portals/42/News/Factsheets/Faculty-Shortage-Factsheet.pdf>.

⁵ *Ibid.*

⁶ *Ibid.*

⁷ Greatest financial need is determined by qualified applicants' with the highest debt-to-salary ratio (total qualifying education loan balance divided by the base annual salary) and their expected family contribution, as indicated on the Official Student Aid Report generated through the Free Application for Federal Student Aid. Additional information here: <https://studentaid.gov/help-center/answers/article/what-is-efc>.

⁹ National Center for Health Workforce Analysis. (November 2023). *Nurse workforce projections, 2020-2036* HRSA. Retrieved September 2024, from <https://bhw.hrsa.gov/sites/default/files/bureau-health-workforce/Nurse-Survey-Fact-Sheet-2024.pdf>.

Corps LRP and SP total annual appropriations to support NPs. Within the allocations for NPs, up to 20 percent of total annual appropriations was available for psychiatric NPs and the remainder was available to all other NPs. NP set-asides were implemented to expand efforts to address the opioid epidemic and other substance use disorders across the nation by supporting the behavioral health nursing workforce. To increase the number of NPs participating in the programs, the Nurse Corps LRP and SP actively recruited licensed NPs and students interested in pursuing training as an NP through outreach efforts to colleges, universities, and associations.

Additionally, the FY 2023 Nurse Corps LRP, continued set-aside funding of up to \$5 million to support women’s health for applicants working in one of the following capacities: women’s health NP, certified nurse midwife, or certified obstetrics-gynecology (OB/GYN) RN. In addition, the Nurse Corps SP committed up to \$2 million of FY 2023 funding to support “Career Pathways” students, who are entry-level health professionals seeking degrees to become a RN.

For the Nurse Corps LRP, applicants with the greatest financial need who work in CSFs located in a Health Professional Shortage Area with scores of 14 or above receive funding preference.¹⁰ For the faculty component of the Nurse Corps LRP, preference is given to nurse faculty members with the greatest financial need working at schools of nursing with at least 50 percent enrollment of students from a disadvantaged background. An individual from a disadvantaged background is defined as a student who is considered economically disadvantaged or comes from an environment that has inhibited them from obtaining the knowledge, skills, and abilities required to enroll in and graduate from a health profession or nursing school (environmentally disadvantaged).¹¹

In FY 2023, the Nurse Corps SP considered applicants with the greatest financial need, based on the applicant’s expected family contribution as determined by the U.S. Department of Education, to receive a funding preference. For FY 2023, this preference included an expected family contribution between \$0 and \$6,206 annually. Among qualified applicants with the greatest financial need, HRSA makes awards considering the following:

- Enrollment or acceptance in an accredited diploma or undergraduate and graduate nursing program or an accredited graduate-level NP program, including NPs specializing in psychiatric mental health, with full-time or part-time registration for consecutive terms.
- Enrollment or acceptance in an accredited Doctor of Nursing Practice program, a program for certified nurse midwives, certified registered nurse anesthetists, clinical nurse specialists, or psychology specialists, with full-time registration for consecutive terms.

This report summarizes Nurse Corps LRP and Nurse SP activities for FY 2023 and provides information on the following, in accordance with Section 846(h) of the PHS Act:

- Number of enrollees, scholarships, loan repayments, and grant recipients;

¹⁰ A debt-to-salary ratio of 100 percent or greater of the total qualifying educational loan balance divided by base annual salary.

¹¹ A full definition of disadvantaged background can be found in the Nurse Corps Loan Repayment Program’s Fiscal Year 2022 Application and Program Guidance Appendix: <https://bhw.hrsa.gov/sites/default/files/bureau-health-workforce/funding/fy-2022-nurse-corps-lrp-guidance.pdf>.

- Number of graduates;
- Amount of scholarship awards and loan repayments made;
- Educational institution attended;
- Number and placement location of Nurse Corps LRP and SP recipients at CSFs;
- Default rate and actions required;
- Amount of outstanding default funds for both the Nurse Corps LRP and SP;
- Reason for default, to the extent that it can be determined;
- Demographics of the individuals taking part in the Nurse Corps LRP and SP;
- Justification for the allocation of funds between Nurse Corps LRP and SP; and
- Evaluation of the costs and benefits of the programs.

IV. Report Requirements

Requirement #1: The Number of Enrollees, Scholarships, Loan Repayments, and Grant Recipients

Nurse Corps Field Strength

In FY 2023, there were 3,628 Nurse Corps participants serving at approximately 2,212 CSFs and schools of nursing. Over 3,300 Nurse Corps participants provide care to 3.5 million patients in the United States. Over 290 Nurse Corps faculty members trained the next generation of nurses. About 22 percent of Nurse Corps clinicians worked at a Federally Qualified Health Center.¹²

HRSA made 997 Nurse Corps LRP awards, including 492 new and 505 continuation awards. (Table 1). The 997 awards were provided to RNs (280 awards; 28 percent), NPs (485 awards; 49 percent), certified registered nurse anesthetists (76 awards; 8 percent), certified nurse midwives (49 awards; 5 percent), and nurse faculty (107 awards; 11 percent).¹³

Table 1: Nurse Corps LRP Awards (FY 2023)

		New	Continuations	Total
2023	Eligible Applications	5,538	551	6,089
	Total Awards	492	505	997
	Base Funds Awards	286	9	295
	American Rescue Plan (ARP) Act Funds Awards	0	495	495
	Women’s Health Funds Awards	58	0	58
	Public Health Nurse Funds Awards	20	0	20

¹² Federally Qualified Health Centers include (1) private nonprofit entities or public agencies that receive a grant under section 330 of the PHS Act or funding from such a grant under a contract with the recipient of such a grant and meets the requirements to receive such a grant; (2) entities designated as “Look-Alikes” by the Secretary of Health and Human Services (or designee) as meeting the requirements for receiving a grant under section 330 of the PHS Act; and (3) outpatient health programs or facilities operated by a tribe or tribal organization under the Indian Self-Determination Act or by an urban Indian organization receiving funds under Title V of the Indian Health Care Improvement Act.

¹³ Percentages may not add up to 100 due to rounding.

		New	Continuations	Total
	Psychiatric-Mental Health Funds Awards	125	0	125
	Recovered Funds Awards	3	1	4

Note: HRSA made Nurse Corps LRP American Rescue Plan Act funded awards to nurses that specialize in women’s health.

HRSA made 326 Nurse Corps SP awards, including 293 new and 33 continuation awards. HRSA made two new Nurse Corps SP awards with no-year funds (Table 2). The 326 awards were to associate degree students (36 awards; 11 percent), bachelor’s degree students (104 awards; 32 percent), bachelor’s accelerated students (82 awards; 25 percent), master’s degree students (70 awards; 22 percent), and Doctor of Nursing practice (34 awards; 10 percent).¹⁴

Table 2: Nurse Corps SP Awards (FY 2023)

		New	Continuations	Total
2023	Eligible Applications	2,405	33	2,438
	Total Awards	293	33	326
	Base Funds Awards	207	0	207
	ARP Act Funds Awards	0	24	24
	Women’s Health Funds Awards	37	0	37
	Career Pathway Funds Awards	20	0	20
	Psychiatric-Mental Health Funds Awards	27	0	27
	Recovered Funds Awards	2	9	11

Requirement #2: The Number of Graduates

Nurse Corps SP participants may enroll in diploma programs as well as accredited associate, bachelor’s, and master’s degree programs. The minimum service requirement is 2 years, with a maximum of 4 years of full-time service, in a CSF depending on the number of years of academic support. Participants can choose from 1 to 4 years of scholarship support, consisting of payments for tuition and fees, other reasonable costs, and a monthly stipend.

Nurse Corps SP participants may work part-time to fulfill their service obligation. However, HRSA will extend the service obligation years of service so that the aggregate amount of service performed is equivalent to the full-time option. Nurse Corps SP graduates have up to 9 months from the date of graduation to obtain a nursing license, accept an offer of employment from a program-approved facility, and begin full-time or part-time clinical services at a CSF. The number of active Nurse Corps SP participants who graduated in FY 2023 is 444. Of those participants, 108 served in a CSF, 335 sought employment at a CSF and one participant was reported to be in a nursing residency. In FY 2023, 88 percent of Nurse Corps alumni remained at a CSF for 2 years beyond the completion of their Nurse Corps service commitment.

¹⁴ Ibid.

Requirement #3: The Amount of Scholarship Payments and Loan Repayments Made

Table 3 below contains amounts paid for Nurse Corps LRP and SP new awards and continuations, funded from annual appropriations (base funds), ARP Act funds, and no-year funds.

Table 3: Nurse Corps LRP and SP Award Amounts (FY 2023)

		Nurse Corps LRP Awards	Nurse Corps SP Awards	Total
2023	Annual Appropriation	\$44,816,790	\$33,937,770	\$78,754,560
	ARP Act Funds	\$16,702,088	\$714,606	\$17,416,694
	Recovered Funds	\$277,688	\$378,607	\$656,295
	Total Amount Awarded	\$61,796,566	\$35,030,982	\$96,827,548

Requirement #4: The Educational Institutions Attended by Recipients¹⁵

Nurse Corps SP participants attended 536 schools in 46 states, including the District of Columbia (these numbers include all Nurse Corps scholars awarded in the prior FY). Appendix B illustrates the distribution of FY 2023 new awards by state and educational institution.

Requirement #5: The Number and Placement Location of the Scholarship and Loan Repayment Recipients at Healthcare Facilities with a Critical Shortage of Nurses

Except for nurse faculty, all Nurse Corps LRP and SP participants are required to serve at a CSF. Nurse faculty participants must serve at an eligible accredited school of nursing. The following types of facilities are eligible CSFs for placement of Nurse Corps LRP and SP participants:

Hospitals:

- Disproportionate share hospital
- Private hospital¹⁶
- Public hospital
- Small rural hospital¹⁷

Other community-based settings:

- Ambulatory surgical center
- American Indian health facilities

¹⁵ Nurse Corps LRP participants have completed their nursing education and are in service at CSFs or accredited schools of nursing; therefore, their educational institution is not reported.

¹⁶ Section 3404(a)(8)(A) of the Coronavirus Aid, Relief, and Economic Security Act (Public Law 116-136), signed March 27, 2020, struck the statutory requirement that Nurse Corps LRP participants were only permitted to work in non-profit facilities.

¹⁷ Critical access hospitals are eligible under the Small Rural Hospital category.

- Community mental health center¹⁸
- End-Stage Renal Disease Dialysis Center
- Federally Qualified Health Center
- Free and Charitable Clinic
- Home Health Agency
- Hospice Program
- Native Hawaiian Health Center
- Nurse-Managed Health Clinic/Center
- Outpatient Facility
- Residential Nursing Home
- Rural Health Clinic
- School-Based Clinic
- State or Local Health Department
- Urgent Care Center

In FY 2023, 890 Nurse Corps LRP new and continuation awardees served in 670 CSFs in 47 states, and the District of Columbia (Appendix C); 107 nurse faculty new and continuation awardees served in 223 schools of nursing in 34 states (Appendix D). In FY 2023, 77 Nurse Corps SP new graduates served in 61 CSFs in 29 states, and the District of Columbia (Appendix A).

Requirement #6: Default Rate and Actions Required

In FY 2023, there were two participants who defaulted in Nurse Corps LRP and none for the Nurse Corps SP.

HRSA expresses the Nurse Corps LRP and SP default rates as the percentage of participants in a cohort (all participants with a new or continuation contract awarded in an FY) who defaulted (number of participants who have defaulted divided by the total number of individuals in the cohort).¹⁹ Individuals often participate for multiple years; however, HRSA calculates default rates based on the FY in which an individual received the initial award.

The maximum amount of time a participant in full-time service may be in the Nurse Corps SP is 8 years – 4 years in school and 4 years of obligated service. The maximum amount of time a participant in full-time service may be in the Nurse Corps LRP is 3 years – 2 years of service under an initial contract and 1 optional year of service under a continuation. Participants with periods of approved suspension of service may require an additional 1 to 2 years of monitoring. Participants in the Nurse Corps SP wishing to serve part-time must obtain prior approval from Nurse Corps SP and must extend the service obligation to equal the full-time commitment. Thus, HRSA reports default rates over 10 years for the Nurse Corps SP and 5 years for the Nurse Corps LRP to provide an accurate picture of default rates. Historically, few to no defaults occur within the first year of the service obligation.

¹⁸ Certified community behavioral health clinics are eligible under the Community Mental Health Center category.

¹⁹ HRSA determines the default rate by the year that HRSA awarded the scholarship or loan. For example, if the award occurred in 2008 and default occurred in 2014, then HRSA would record the default in 2008.

Participants who breach their contracts are placed in default and are liable to repay the Nurse Corps LRP or SP funds they received, plus interest, from the date of the default, which is defined as the date the participant breached the Nurse Corps contract service obligation or, for scholars still in school, the date they left their educational program as described in section 846(g)(1)(A) of the PHS Act. Participants must pay the total amount owed, including interest, within 3 years of the date of default. The interest rate is the maximum legal prevailing rate for the applicable quarter determined and fixed by the Secretary of the Treasury after taking into consideration private consumer rates of interest. The Nurse Corps LRP and SP work with participants placed in default by helping them to satisfy their debts through service when possible. In FY 2023, HRSA granted 2 participants, who were previously in default, an opportunity to return to service. However, these participants did not fulfill the necessary requirements to resolve their default status and, as a result, remained in default. The Nurse Corps SP did not have any defaults in FY 2023.

As of September 30, 2023, there were 153 defaults in the Nurse Corps SP from FY 2013 to FY 2023.

Table 4: Nurse Corps SP Default Rates (FY 2013 – FY 2023)

Nurse Corps SP Default Rates Based on Award Year												
	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	FY 2018	FY 2019	FY 2020	FY 2021	FY 2022	FY 2023	Overall
Total Defaulters	33	21	31	17	10	12	8	8	10	3	0	153
Total Awardees	260	242	269	242	212	219	233	257	544	592	326	3,396
Default Rate	12.7%	8.7%	11.5%	7.0%	4.7%	5.5%	3.4%	3.1%	1.8%	0.5%	0.0%	4.5%

As of September 30, 2023, there were 125 defaults in the Nurse Corps LRP from FY 2019 to FY 2023.

Table 5: Nurse Corps LRP Default Rates (FY 2019 – FY 2023)

Nurse Corps LRP Default Rates Based on Award Year						
	FY 2019	FY 2020	FY 2021	FY 2022	FY 2023	Overall
Total Defaulters	11	21	47	44	2	125
Total Awardees	853	756	1,587	2,279	997	6,472
Default Rate	1.3%	2.82%	3.0%	1.90%	0.2%	1.9%

Requirement #7: Amount of Outstanding Default Funds of Both the Loan Repayment and Scholarship Programs

Section 846(g)(4) of the PHS Act authorizes amounts recovered from participants who breach their Nurse Corps LRP or SP contract to be made available for the respective program until expended. HRSA uses these funds for new awards, continuations, and modifications to existing contracts. In FY 2023, the Nurse Corps LRP added \$277,688 to its no-year account and closed the FY with a net amount of \$27,771 as Nurse Corps LRP did not make any awards from the no-year account. In FY 2023, the Nurse Corps SP added \$378,607 to its no-year account and closed the FY with a net amount of \$80,111.

As of September 30, 2023, the total outstanding default debt was \$3,431,553 for the Nurse Corps LRP and \$17,215,630 for the Nurse Corps SP.

Requirement #8: The Reasons for the Default

Recognizing there were no defaults in FY 2022 or FY 2023, historically the most common reasons for default in the Nurse Corps SP are that participants fail to complete their service obligation, receive an academic dismissal, or withdraw from school.

Table 6: Nurse Corps SP – Reasons for Default (FY 2013 – FY 2023)

Reasons for Default	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	FY 2018	FY 2019	FY 2020	FY 2021	FY 2022	FY 2023	Total
Failure to Verify Employment	2	0	1	4	4	1	1	0	0	0	0	13
Academic Dismissal	5	2	8	2	1	3	3	1	0	0	0	25
Withdrawal from School	4	5	2	1	1	1	2	1	0	0	0	17
Service Default*	18	12	15	4	4	2	1	0	0	0	0	56
Inappropriate Curriculum**	0	0	1	0	0	0	0	0	0	0	0	1
Voluntary Default***	1	2	3	2	0	1	0	0	0	0	0	9
Total	30	21	30	13	10	8	7	2	0	0	0	121

Notes:

* Includes failure to work full-time when required, failure to work at an approved CSF, resignation from a CSF, or failure to meet program requirements.

** Includes curriculum unrelated to a nursing degree or unapproved nursing degree (e.g., licensed practical nurse).

*** Includes participants who contact the Nurse Corps SP and request default.

The two reasons for default in the Nurse Corps LRP in FY 2023 were not working at an approved site and requested voluntary default. This is consistent with past experience as since

FY 2019, the most common reasons were not working at an approved site, followed by requested voluntary default.

Table 7: Nurse Corps LRP – Reasons for Default

Nurse Corps LRP Default Rates Based on Award Year						
	FY 2019	FY 2020	FY 2021	FY 2022	FY 2023	Total
Resigned/Left CSF	16	12	0	0	1	29
Voluntary Default*	0	7	0	0	1	8

Failure to Verify Employment	0	0	0	0	0	0
Other**	0	0	0	0	0	0
Total	17	19	0	0	2	38

Notes:

* Includes participants who contact the Nurse Corps LRP and request default.

** Includes participants who were not working at an approved CSF, whose employment failed to meet the minimum program requirements, whose licenses were revoked, or who were terminated for cause.

Requirement #9: The Demographics of the Individuals Participating in the Loan Repayment and Scholarship Programs

Nurse Corps LRP and SP participants self-report demographic data. Participants may choose to report on any of these demographic areas in whole or in part. Of the Nurse Corps participants who reported on sex, race, and ethnicity, the most reported sex was female, and the most reported ethnicity was White. Black or African American was the largest reported underrepresented group demographic (Table 8). The Nurse Corps captures race and ethnicity data separately in the electronic application. Participants report Hispanic/Latino and Non-Hispanic/Non-Latino ethnicity data separately from race data. As a result, the Hispanic/Latino and Non-Hispanic/Non-Latino ethnicity data may be over-reported because participants can report it in both the race and ethnicity sections.

Table 8: Nurse Corps LRP and SP Participants' Demographic Characteristics

FY 2023 Demographics	Nurse Corps LRP		Nurse Corps SP		Total	
Total Awards	997		326		1,323	
Sex	#	%	#	%	#	%

Does Not Wish to Disclose	47	4.71%	23	7.06%	70	5.29%

Requirement #10: Justification for the Allocation of Funds between the Loan Repayment and Scholarship Programs

Historically, HRSA has allocated between 67-75 percent of the total Nurse Corps funds for the LRP and 25-33 percent for the SP. The LRP is designed to support licensed nurses who are working at CSFs and can readily supply available and qualified nurses to areas in need of their service. In addition to the remaining ARP Act funding from FY 2021, in FY 2023, the Nurse Corps programs received \$92.6 million in annual appropriations. Of the \$92.6 million in annual appropriations, HRSA designated \$79.4 million for the Nurse Corps LRP and SP awards, consisting of \$45.1 million allocated to LRP awards (57 percent of HRSA allocation) and \$34.3 million to SP awards (43 percent of HRSA allocation). The remaining \$13.2 million directly supported the Nurse Corps programs in the form of staffing and acquisition contracts, including the electronic system used to process program applications and monitor awarded participants, tax withholding and reporting, and other administrative obligations.

Requirement #11: An Evaluation of the Overall Costs and Benefits of the Programs

Analysis of costs per years of service:

(1) FY 2023 Nurse Corps LRP Awards

In FY 2023, HRSA made 492 new awards, representing a 76 percent decrease in new awards from the 2,071 made in FY 2022. This decrease in new awards was due to the limited program funding remaining from the ARP Act and the increase in award amounts. The average new award amount for Nurse Corps LRP participants was \$91,106 for nurses serving in CSFs and \$89,881 for nurses serving in accredited schools of nursing. This is a 142 percent increase in the average new award amount for nurses serving in CSFs and a 124 percent increase in the average new award amount for nurses serving in accredited schools of nursing from FY 2022 to 2023. The Nurse Corps LRP awards larger amounts to applicants with the highest financial need, so making more awards leads to smaller average award amounts, while fewer awards results in higher averages.

(2) Nurse Corps LRP Continuations

In FY 2023, 38 percent of the participants initially awarded in FY 2021 requested a continuation award. The Nurse Corps LRP awarded 505 continuations in FY 2023. Nurse faculty received 64 (13 percent) continuation awards.

To continue support of APRNs in women's health (women's health NPs and certified nurse midwives) and certified OB/GYN RNs working in eligible CSFs, the Nurse Corps LRP continued its women's health set-aside of up to \$5 million from FY 2023. Nurse Corps LRP made 58 new awards to support women's health from annual appropriations and an additional 40 continuation awards from ARP Act funding.

(3) FY 2023 Nurse Corps SP Awards

In FY 2023, the Nurse Corps SP made 293 new awards and 33 continuation awards. The average new award was \$116,308. This represented a 48 percent decrease in the number of new awards and a 13 percent increase in the average new award amount from FY 2022 to FY 2023. To increase the supply of RNs with the ability to respond to the growing nursing shortage, in FY 2023 the Nurse Corps SP dedicated funding to supporting a career pathway to obtaining a qualifying degree to become an RN. Students with multiple career designations of entry-level health professions training include health professionals such as certified nursing assistants, home health aides, medical assistants, and licensed practical (vocational) nurses. Nurse Corps SP made 20 awards to eligible scholars from the career pathway set-aside using annual appropriations and an additional 24 continuation awards from ARP Act funding.

(4) Average Amount Funded Per Year of Service Obligated

HRSA bases new Nurse Corps awards on 2 years of obligated service and caps them at 60 percent of the applicant's total eligible loan amounts. The average new award amount per year of obligated service was \$45,553 for nurses serving in CSFs and \$44,940 for nurses serving in accredited schools of nursing – an over 20 percent increase in the award

amount per year for nurses serving at a CSF and 11 percent increase for nurses serving in accredited schools of nursing from FY 2022 to FY 2023.^{20,21}

HRSA bases Nurse Corps SP awards on 1 year of service for each year of funding with a minimum of 2 years of service. The average new SP award amount per year of obligated service was \$51,816 – a 12 percent increase from FY 2022 to FY 2023.

V. Conclusion

The Nurse Corps LRP and SP contribute to increasing the number of nurses working in CSFs and teaching in nursing schools across the United States. In FY 2024, the Nurse Corps programs will continue focusing on ensuring Nurse Corps participants serve in areas with the greatest need. Some of the critical activities of the Nurse Corps programs in FY 2023 were maintaining set-aside funding levels to APRNs trained in psychiatric mental health and increasing the number of women’s health NPs, certified nurse midwives, and certified OB/GYN RNs. The ongoing participation of nurse faculty in the LRP program will also help address upcoming nurse shortages in the future. Through the efforts and accomplishments highlighted in this report, the Nurse Corps programs allow dedicated RNs and APRNs to care for underserved populations in CSFs and provide quality education in schools of nursing with students from disadvantaged backgrounds.

²⁰ This data does not include the amount for continuation contracts which would extend the amount paid up to 85 percent of their debt and extend their years of obligated service to 3 years.

²¹ Nurse Corps LRP uses the debt-to-salary ratio as a primary criterion in ranking applicants so lower ranked applicants tend to have smaller debt. The additional awards made with the ARP Act funds allowed HRSA to fund more applicants reaching those with less debt, therefore led to a decrease in average award amount.

Appendix A – Nurse Corps Scholarship Program Graduates by State and Critical Shortage Facility (FY 2023)
